

## One and only LEGO Festival under the Tatras

**LIPTOVSKÝ MIKULÁŠ (28<sup>th</sup> April 2014) – A unique LEGO exhibition of sculptures is the only travelling exhibition in the Czech Republic and Slovakia, which is coming to the water park of Tatralandia on 1<sup>st</sup> -11<sup>th</sup> May 2014. It will be not only small builders who will be creating their large and original works of art in the tropical world but also those who remember times when they were kids themselves, with a touch of nostalgia. Everybody who feels like enjoying a real world of fantasy and visits the largest water paradise of Tatralandia during the above mentioned 11 days can join an endless chain of competitions or admire real craftsmanship of LEGO masters.**

The special LEGO Festival is an absolute hit of May. The tropical world of the Liptov region will welcome families with children and introduce the magic of the famous creative construction set and popular heroes of fairytales such as Toy Story, Star Wars, 101 Dalmatians, McQueen, the famous Czech cartoon about the Mole, pop singer Michael Jackson and others. Apart from salty sea water, a tropical climate or snorkelling with sea fish, families with children can enjoy a day they will never forget. While relaxing by water or on sun beds with mixed drinks in their hands inside the indoor Tropical Paradise hall, the older generation can remember times spent with the legend of all toys. Children will be happy about daily competitions with 1,000 LEGO construction sets to win, larger-than-life statues, busts and pictures made of LEGO bricks. There will even be bricks to play with at the exhibition. Boys can look forward to a car race on a LEGO Technic track, girls will love the town of the LEGO Friends corner. At the end of the festival week, visitors will get a chance to pitch in and try to create a larger-than-life statue of a bear together with a master builder. The Lego Festival at Tatralandia combined with a water park opened all year round or trips to Mt. Chopok – this is an ideal tip for end-of-year school trips. **For more information about school trips, please click [HERE](#).** Aquapark Tatralandia opens its summer season on 14<sup>th</sup> June 2014, with the traditional Water Battle and international teams from the Czech Republic, Poland and Slovakia.

**LEGO facts:** The modern plastic version of the most popular children's construction set has been sold since 1949. The author of the LEGO construction set is Ole Kirk Christiansen from Denmark. There is nothing that couldn't be built of the best known construction bricks. If you put Lego bricks sold in 2012 next to each other, they would surround the globe more than 18 times.
