# Benefit activation

- Once the registration is approved, the benefit is automatically uploaded to the shareholder's Gopass account, i.e. their "Gopass vouchers" section. The benefit can be activated for the given shareholder or any subordinate person in their account. The benefit must be transferred as a whole and cannot be split.

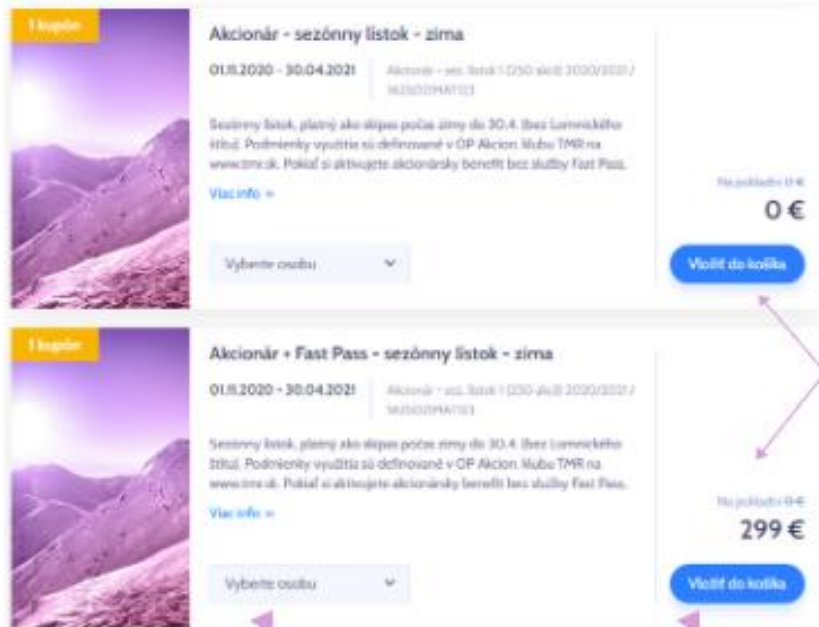

Once your registration is approved, you'll find your benefit in this section.

Click on "View vouchers" to see two vouchers – one without the Fast Pass service and the other including the Fast Pass at the price of €299. In the following step you will have to decide for one of the options.

# Benefit activation

- If any shareholder does not have a personalised Gopass key card in their Gopass account, they must pay a €2 charge/card when activating their benefit. When they visit a resort for the first time, the card can be collected in the local Client centre. Benefits cannot be activated without Gopass cards in the respective shareholders' accounts.
- If any shareholder has their own Gopass key card already, they can use the advantages of the Shareholder's Club once they activate their benefit in their "Gopass vouchers" section.

## Please note:

- **Season ski pass, VIP and VIP GOLD benefits** are activated as follows:

- 1) ski pass activation
- 2) activation of other services that are included in the benefit (water parks...).

Please activate other services of step 2 also in your "Gopass vouchers" section. You can do so once you activate the ski pass.

**As for the activation of 6-, 12- and 25-ticket benefits, step 1 is enough.**
